MINT-Chancen

Summer School at the University of Applied Sciences Koblenz Women in STEM – New chances for female refugees

What does the project offer?

- academic workshops on STEM fields: science, technology, engineering and mathematics (in German: MINT)
- workshops on different soft skills
- information and events
- company by female students
- an internship at a local business

What is our intent?

To prepare young female refugees for a study at a German University, especially at the University of Applied Sciences Koblenz and to give orientation in the STEM-labour market.

Dates 2017:

21/08/2017- 08/09/2017 (Workshops)

11/09/2017 - 29/09/2017 (Internship)

The project is addressed to fled women between 18 and 35 years with “Aufenthaltserlaubnis”. Participation is free of charge.
